<b>LOCATION:</b>	The resort is located on the south-western tip of Bali, on the wide curve of Jimbaran's golden shores. The contemporary Balinese-style private villas are nestled amongst 35 acres of ocean-front tropical gardens that cascade down a gently terraced hillside named Bukit Permai, literally meaning "beautiful hill". It is 15 minutes' drive from the International Airport, 20 minutes from the famous Uluwatu Temple, and 40 minutes from Seminyak's nightlife and shopping.
<b>DESIGN:</b>	Four Seasons Jimbaran Bay is iconic as the world's first large-scale luxury all-villa beach resort, and the first to feature plunge pools in every guest room. The villas and residences combine generous space and plush comforts with a graceful Balinese aesthetic, creating a sanctuary that has guests feeling at home in Bali. As in a traditional Balinese village, groups of approximately 20 villas are clustered around seven village squares. Each village square has a designated village chief and circle of "service" family members to take care of their guests, creating a direct connection between the traditional Balinese village concept of the architecture, and the authentic hospitality that underpins each guest experience.
